Spring 2012

Courtenay House

Gerrards Cross

London

This client required a custom made balcony at the front of the house and a juliet balcony at rear. We assisted by providing photo montage designs of the ironwork in position prior to manufacture. These were reviewed by the client until we found the precise design and dimensions that complemented the surroundings correctly. The design starting point was the interior staircase balustrade design manufactured by us earlier in the year.

We also helped by designing and manufacturing the front entrance gates.

The following pages illustrate the process from design, to production and manufacture.

Peter Weldon.
