Interior Stair Balustrade.

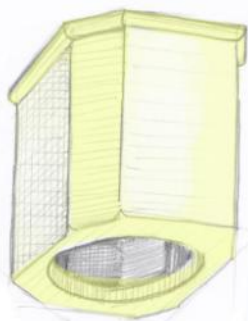

Peter Weldon Iron Designs have been commissioned to design and manufacture an impressive interior stair balustrade for a Georgian house in central London . The new balustrade runs from lower ground floor to ground floor and is finished in black satin . The bronze collars and discs compliment other elements of the interior.

The ironwork is designed at our studios in South Wales, and manufactured under our direction in Bulgaria by Aquairon. Installation is carried out by our partner firm Charlie Griffiths www.cgautomatedgates.co.uk

The following photos illustrate the process from design, through to production and installation.
