Winter 2012 to Spring 2013

Tedworth House Entrance Gates Project, South Tidworth, Wiltshire.

The origins of this fine old mansion are unclear but it was for many years a well known sporting estate, and at one time the home of the statesman Lord Broughton (1786 – 1869), when it was visited by the Duke of Wellington. Restructured and extended by John Johnson between 1878-1879 the house is now owned by the Ministry of Defence and is used as a personnel recovery centre for the 'Help for Heroes' charity.

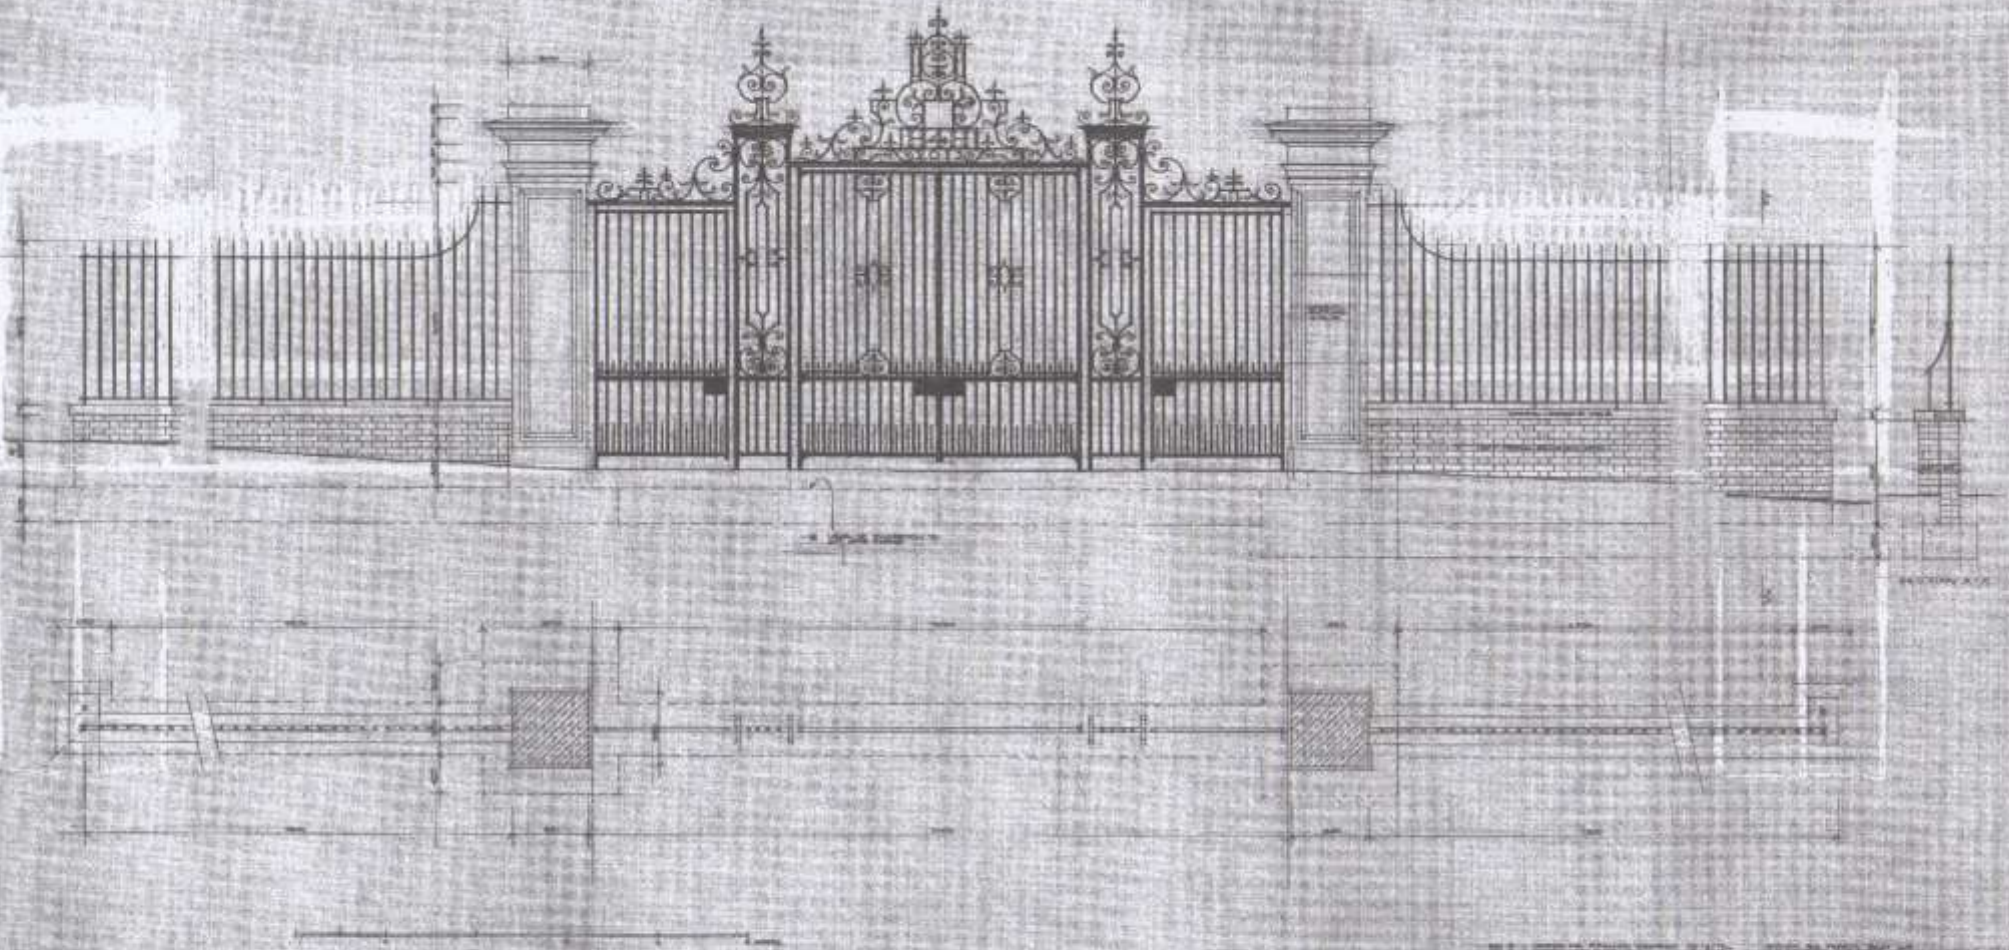

In collaboration with Vinci Construction Ltd www.vinciconstruction.co.uk and Quinlan and Francis Terry Architects; www.qftarchitects.com Peter Weldon Iron Designs have installed five new gate entrances commencing Autumn 2012.

The ironwork is designed at our studios in South Wales, and manufactured under our direction in Bulgaria by Aquairon. Installation is carried out by our partner firm Charlie Griffiths www.cgautomatedgates.co.uk

The following photos illustrate the process from design, through to production and installation.
