Autumn 2012

13ft Sligo Arch Top Entrance Gates (4000mm width by 1868mm high)

Molewood Hall

Designed by Peter and Louise Weldon in the UK.

Manufactured under our direction by partners *Aquairon* of Bulgaria.

This client required custom made entrance gates in keeping with their country residence. We assisted by providing all drawings, design combinations and photo montage work of the ironwork in position prior to manufacture. These were reviewed by the client until we found the precise design and dimensions. Further work at the house included matching pedestrian gates near the house.

The following pages illustrate the process from design, to production and manufacture. Installation was by Peter Weldon and Charlie Griffiths.

**Specification-**

Hand forged wrought scrollwork

Hand made hammered gothic arch motifs.

Details secured by collars. Large prominent rivets used within design

Vertical sections *punched through* horizontals (this is a significant point)

[www.Zinga-uk.com](http://www.Zinga-uk.com) galvanised and etch primer painted. Top coat single colour

Site visits and final drawings as necessary

**STEEL POSTS** to hang gates with steel fixing plate at base.

*Peter Weldon.*

Entrance prior to installation.

Gate montage with preferred design.

Lost wax bronze plaque.

Solid limestone sphere and pillars.
