## East of England Country Estate.

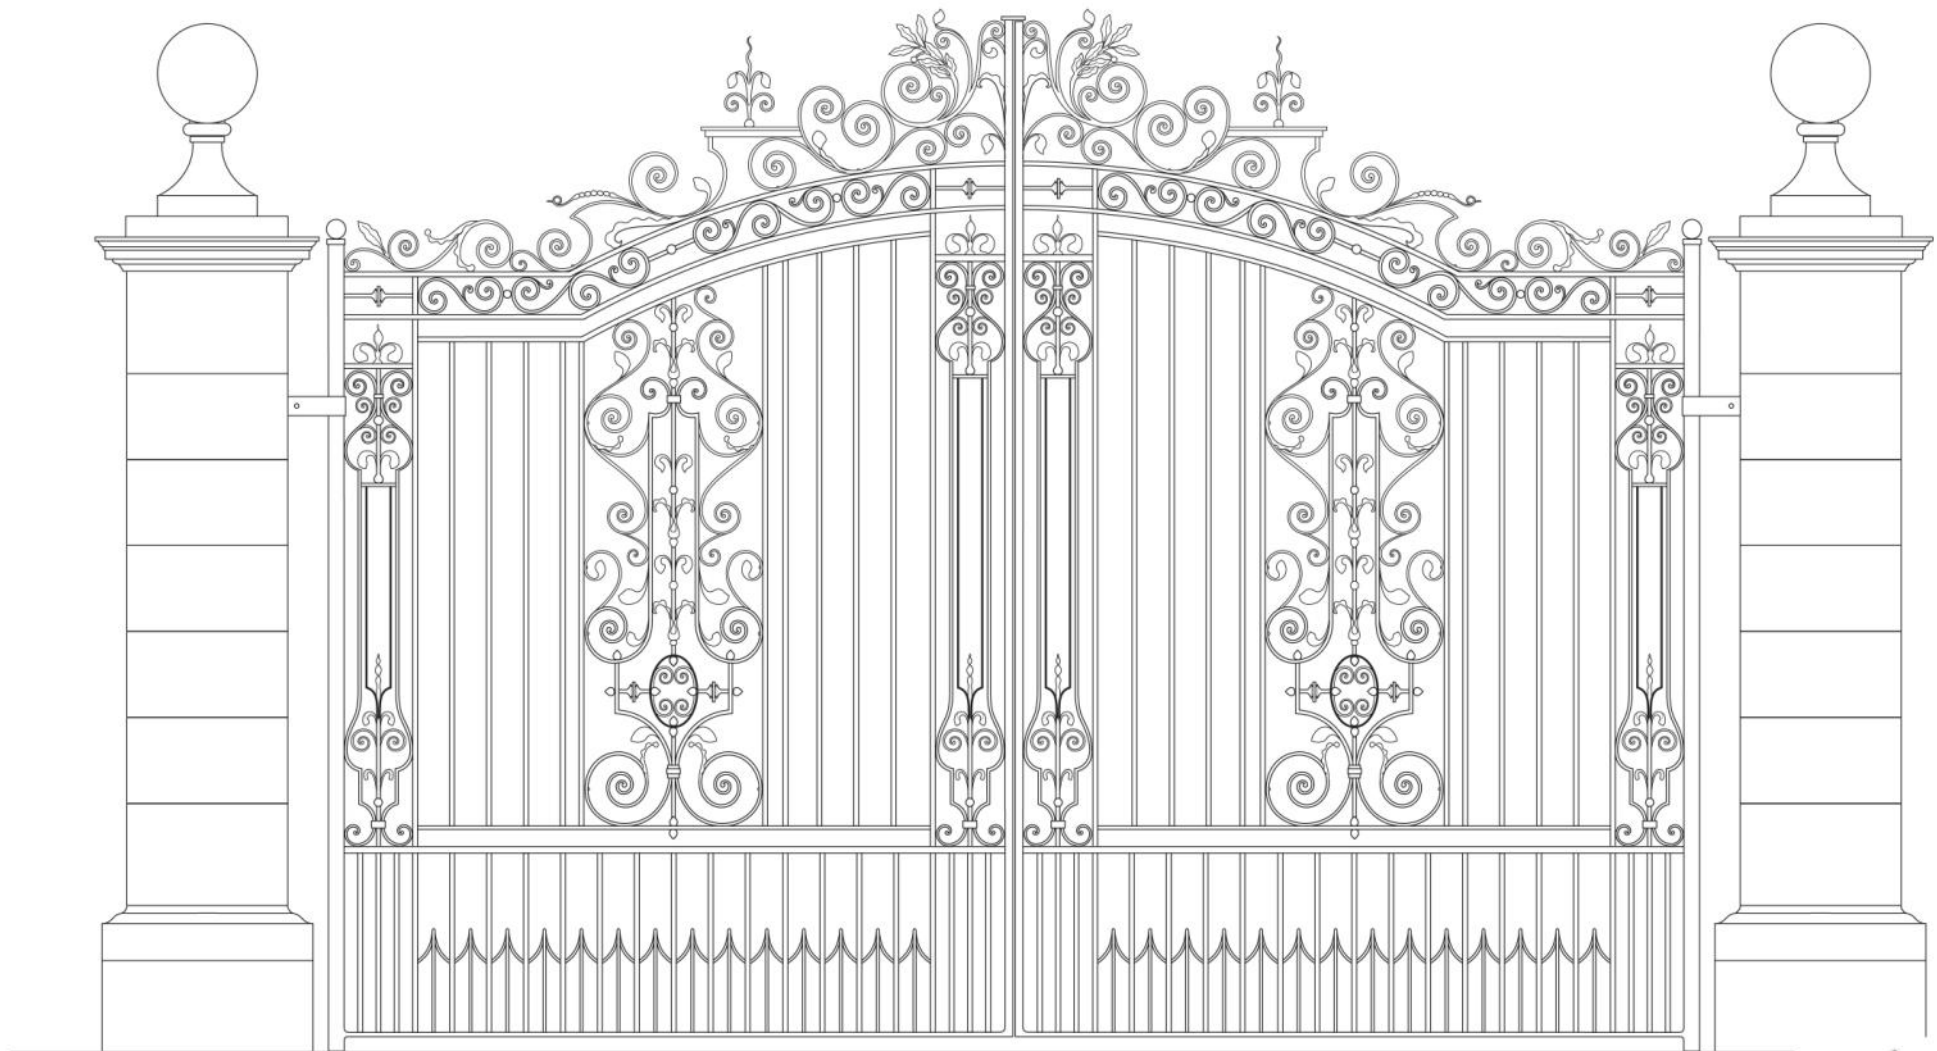

The estate surrounds the Grade II Listed Regency mansion designed by the Duke of Wellington's own architect, Philip Hardwick.

Working with [www.lathamarchitects.co.uk](http://www.lathamarchitects.co.uk) and the building and civil engineering contractor Farrans, [www.farrans.com](http://www.farrans.com) Peter Weldon Iron Designs has been commissioned to design, supply and install three important gate entrances to the Hall in keeping with the Regency style of the estate.

The ironwork is designed at our studios in South Wales, and manufactured under our direction in Bulgaria by Aquairon. [www.aquairon.com](http://www.aquairon.com) Installation is carried out by our partner firm Charlie Griffiths [www.cgautomatedgates.co.uk](http://www.cgautomatedgates.co.uk)

The following photos illustrate the process from design, through to production and installation.
