

PETER WELDON
IRON DESIGNS LTD.

Design and Manufacture of Period and Architectural Ironwork

This beautiful Georgian property required a balustrade on either side of the steps leading up to the front door. The bronze handrail ends with an elegant volute and the vertical sections are core drilled into each step and finished with a decorative bronze collar.

Initial sketch during site survey and accurate Autocad drawing showing section sizes.

Profile of the handrail during manufacture.

Entrance prior to installation.
