

PETER WELDON
IRON DESIGNS LTD.

Design and Manufacture of Period and Architectural Ironwork

Events Stand at Mercia Marina, Derbyshire

By Peter Weldon Iron Designs Ltd.

Mercia Marina is Europe's largest inland marina.
<http://www.merciamarina.co.uk/>

Peter Weldon Iron Designs can design to your requirements with pencil sketches, Photoshop and DWG files. Custom mouldings can be created using our skilled model makers to replicate shields or motifs. The structure can be created from steel, cast iron, cast bronze, copper, aluminium, fibreglass and timber. The following images illustrate the events stand at Mercia Marina in Derbyshire, Europe's largest inland marina.

The angular design of the roof echoes the shape of the marina building.

Removable seating in a pentagon formation.
